Attention: Mr. Chuck Sholtis,

MAR 27 2002

Dear Chuck,

Siemens VDO Automotive Corporation would like to take the opportunity to congratulate your company for the fine work you have done in the transfer of our molding machines to your company.

This transfer of business to your company is sizable and will benefit your company for a long time. Nonetheless, you have proved a capable supplier in a very short time, one who is unafraid to tackle a large challenge. You have successfully taken into your business over 25 molding part numbers, which encompassed the installation of nine molding machines, and over 20 molds. You also had to run PPAP's on all part number qualifications, and in many cases rework the tools to bring the parts into specification. You did this all within the eight week safety stock inventory window and most importantly, you kept our manufacturing lines running without interruption.

We thank you for your good work and dedication to excellence. We look forward to a continued business relationship with your company.

Best regards,

John J. Manning, C.P.M.
