Plastic Molding Technology, Inc.  
12280 Rojas Drive, Unit A  
El Paso, TX 79936  
ATT: Chuck Sholtis

Dear Chuck:

This letter is in appreciation of the great job that your company has done for MIJA in assisting us during our difficult period of getting parts run for production.

Once we were able to get molds moving to you, your people responded with an excellent job of inspecting, evaluating, and cleaning the molds that needed to be run.

Their efficient actions started getting us product quickly, and they delivered once or twice a day until we were caught up with our production requirements.

This problem came at the worst possible time for our company. After waiting for months for large orders to be placed, we were unable to get product moving to produce as required. Your company's quick response enabled MIJA to make record shipments for the month of July. We only missed a couple of small orders for that month, and completed those the first week of August.

Again, thanks to all your team at PMT for your superior efforts.

Sincerely,

DONALD P. COMELLA

Purchasing Manager
